**Thursday 8th November 2018**

## **Lunchtime Lecture**

### **Driverless Cars**

**The future of road transport and the implications for insurers**

*Presented by*

*David Williams – Technical Director – AXA Insurance*

David is the Technical Director at AXA insurance – with Over 30 Years' experience in General Insurance, roles including Chief Commercial Underwriter at one of AXA's largest branches, Reinsurance Manager, Casualty Insurance Manager, Managing Director Claims, and Managing Director of Underwriting. He is also Chair of The CII Underwriting Faculty and heavily involved in the Governments 'Connected and Autonomous Vehicles' Pilots. Chair of RISC Authority and Board Member at the Fire Protection Association (FPA). He speaks regularly at conferences and other events in the UK and Europe on a variety of subjects including most recently Big Data, improving customer satisfaction, and climate change. Has also appeared on BBC Breakfast TV, Channel 4 News, and Radio 4's 'Today' Programme, being interviewed on topics varying from Driverless Cars, Climate Change and Flooding, Compensation Culture to Business Crime.

#### **At the end of the event you will;**

- Have gained an understanding of some of the Government backed consortia and why AXA & other insurers are involved in these.
- Seen how the UK Insurance industry is responding and the workings of the ABI ADIG.
- Understand details of the governments work with regard to making Connected & Autonomous Vehicles (CAV's) a reality for the UK.
- Be aware of Possible Timelines for the various stages of Driver assistance systems moving through to fully autonomous driving.
- Have discussed possible impacts of CAV's on the current insurance market, including changes to Motor and Public/Products Liability

12:15pm Manchester Hall, 36 Bridge Street, Manchester
