

## Thursday 12th March 2020

### Lunchtime Lecture

## Vicarious Liability:

A punchy analysis of the expanding scope of liability for employees and contractors

*Presented by:*

**Brian McCluggage, Barrister**  
9 St John Street Chambers

Legally imposed responsibility for the actions of others - vicarious liability - is a fast moving subject of relevance to most personal injury practitioners. The Supreme Court has been expanding the law to cover incidents of sexual abuse, workplace assaults, and for those in non-traditional employment relationships. Brian will help attendees to draw a thread through all the recent authorities so to be in a position to practically apply the principles to novel or difficult cases of their own.

Brian McCluggage is a specialist in high value/catastrophic personal injury and fatal accidents. His work predominantly derives from insurers. He is regularly instructed in complex liability disputes often involving technical expert evidence or points of law. He practices from 9 St. John Street, Manchester and 12KBW, London.

**12:15pm Freemason's Hall, 36 Bridge Street, Manchester**
